

"Networking for a Cause".

How far will a \$1.00 go these days?

Every year your child's teacher dips into his/her pocket for room supplies so that our children can have the most positive and rewarding learning experience possible. They do this because the typical school budget does not have sufficient funds allocated for all these expenses to be covered out of budget funds.

Well, this school year will be far more burdensome for our teachers. What little funds they could depend on have just disappeared

The HBA is asking for just \$1.00 per person. This \$1.00 will go into a fund that will purchase gift cards to be distributed among the teachers in the 25 hardest hit school districts in the State of Idaho.

Teachers and Our Children need your \$1.00

You may give us your \$1.00 today or mail it to the address below .
